Where coal is got in a township and brought along the mine to the shaft in another township, then at the rate of 6 <i>d.</i> per ton in the former township, and 2 <i>d.</i> in the latter township.	The same amount is entered in both columns, Gross and Rateable, according to calculation made, as stated in previous column.
Prestwich - - -	(1). Coal Mines - -	1	1,076	876	Pit flooded, no coal got. Land, buildings, and power valued. Land at 2 <i>d.</i> per yard per annum. Buildings valued at their worth, and 6½ per cent. thereon for gross estimated rental; power at its worth, and 7½ per cent. thereon for gross annual value.	Land, one-twentieth deducted; buildings, one-sixth, deducted; power, one-fourth deducted.
Rochdale - - -	(1). Coal Mines - -	73	10,749	8,633	Charged on the number of men getting coal, such charges varying according to the situation of the colliery and the thickness of the coal seam. Also, in some cases the rateable value is fixed after the rate of 6 <i>d.</i> per ton.	20 per cent. No deduction.
Salford - - - -	(3). Other Mines - -	4	104	83	- - - - -	20 per cent.
	(1). Coal Mines - -	3	25,901	20,644	The gross estimated rental is arrived at by ascertaining the quantity of coals got during the preceding year, and charging the average price per ton, deducting the average cost per ton.	The deduction from the gross estimated rental to arrive at the rateable value is 10 per cent. from buildings, &c., and 20 per cent. from the value of the coals.
Todmorden - - -	(1). Coal Mines - -	3	1,367	1,230	A new valuation of these coal mines will shortly be made by the valuers to the assessment committee, when the particulars required in these two columns as to the mode of arriving at the rateable value shall be furnished.

Wigan - - -	(1). Coal Mines - - -	21	182,939	152,457	The basis of assessment is the fair letting value of the mine gotten, the quantity of which is ascertained every year, and the fair letting value is settled from time to time by the committee. Plant exclusively used for colliery purposes is not assessed, but no deduction is made from the value arrived at under the above rule, which is fixed as the rateable value. The gross is arrived at by adding to the rateable value one-fifth thereof, so that the union has not obtained any unfair advantage in the matter of the county rate, which is assessed on the gross estimated rental. There are 21 different mines or seams of coal worked in this union. These seams are leased to the colliery proprietors at yearly rents calculated at a price agreed upon for each foot in thickness of an acre in extent. For instance, the fair letting value of the "Cannel" mine is taken by the assessment committee at the present time to be 150 l. per foot thick of an acre in extent. The committee obtain through the overseers a return at the commencement of each year from each colliery proprietor of the quantity of each mine gotten by him. A form of the return is hereto annexed. These returns are carefully revised by the committee, and, if considered satisfactory, are adopted. If not, a large increase is put on, and on the proprietor appealing, he is compelled to produce satisfactory evidence of his get.

Berwick-upon-Tweed -	(1). Coal Mines - -	7*	2,992	2,482	Two coal mines and limekilns were valued by Mr. Hedley, of Sunderland, in 1873. No basis or scale being furnished to the committee, the other five valued at fixed rents paid to proprietors, and 50 <i>l.</i> added for value of pumping engine in one township.	5 per cent. deducted for repairs and insurance.
Castle Ward - - -	(1). Coal Mines - -	10	17,312	13,358	The large collieries have recently been valued by T. F. Hedley, of Sunderland, but the rule or basis on which the gross estimated rental is arrived at has not been made known to the assessment committee. It is supposed to be at a certain rate per ton on the vend, but, whether, in addition to this, interest is charged on the money expended on shafts, buildings, and machinery is not known to the committee, neither is the rate per ton known.	In working collieries 25 per cent. for repairs is deducted from gross rental to arrive at rateable value.

NOTTINGHAM:						
Basford - - -	(1). Coal Mines - -	35	63,064	53,956	The rateable value being a fixed amount per ton by agreement between the principal coal masters and the assessment committee after litigation and subsequent arbitration, the gross estimated rental is purely hypothetical, and is arrived at by adding about 20 per cent. to the rateable value.

Mansfield - - -	(1). Coal Mines - -	10	30,908	24,684	The valuer reports that the gross estimated rental is based on the value for the time being of the coal gotten per ton during each year calculated as a rent or royalty payable to the landlord, together with interest on the amount expended on the plant belonging to the freehold.	20 per cent., being the average amount of local rates.
Radford - - -	(1). Coal Mines - -	2	4,500	3,600	Amount at which they would reasonably let for from year to year.	Deductions on account of rates, taxes, and repairs.
Worksop - - -	(1). Coal Mines - -	9	17,095	16,240	The gross estimated rental is supposed to be the sum which a tenant from year to year would give. To ascertain this the value of the coal at the pit's mouth is taken, and from this is deducted the cost of bringing to the surface. Then allowances are made for tenants, profits, risks, &c., &c., in the manner of valuing railways. The result of a valuation on the above basis in 1875 showed a gross estimated rental equal to 9 d. per ton of the coal raised for hard coal collieries, and 8 d. per ton for soft coal; but recently, owing to the depreciation in the value of coal, a reduction has been made to 6 d. per ton for hard, and 5 d. per ton for soft coal. Returns are obtained from the colliery owners of their workings. The above figures are on the reduced assessment of 6 d. and 5 d. per ton of the above rates; 2 d. per ton is supposed to be in respect of the plant, so that where the coal is got from under one parish, and the plant is in another, 2 d. per ton is allowed to the parish having the plant, and 2 d. less charged in the parish where the coal lies.	A deduction of 5 per cent. is made in determining the rateable value.

* The basis on which the gross valuation is obtained is as follows:—I have made a valuation of all fixed plant, such as machinery, buildings, and works done, viz., pit shafts and headings, and have taken the total amount at 6%; to this I have added the royalty that ought to be paid for minerals raised.

As to the scale of deductions, I have taken 25% off the gross valuation of all the old collieries, and 20% off the new collieries, or those that were in a better position than others. The deductions are made, of course, for many things that occur to collieries, such as accidents to machinery, to the works under ground, collieries not at work for various reasons, and sometimes great losses connected with collieries that cannot be avoided, especially old ones. After the deductions are made, in my opinion, the amount remaining is what the colliery would let for at a rental, and what the colliery ought to pay on assessment.

North Bierley - -	(1). Coal Mines - -	74	16,834	16,605	The rule or basis of assessment of coal and ironstone mines is upon the quantity of minerals worked from year to year. The Assessment Committee of this union agreed a short time ago with the "Low Moor Company" and the "Bowling Iron Company" respectively, the owners of the greater part of the coal in this union, to refer to arbitration the question of the assessment of the mines belonging to and worked by the respective companies. An arrangement was, however, come to whereby the net amount per acre upon the quantity worked from year to year was agreed to. This amount was taken as the rateable value, and the same sum has also been entered in the column for "Gross Estimated Rental."	
	(2). Ironstone Mines -	25	3,525	3,525	The same observations apply, with slight exception, to all other coal and ironstone mines in the union. The engines used in connection with the several mines are also assessed at 5 <i>l.</i> per horse power, and a deduction of one-sixth is made to arrive at the rateable value, but the engines are not included in the figures given.	
	(3). Other Mines -	16	1,350	1,209	Three-fourths of the annual rental or payment by way of royalty or thereabouts.	£. 8 per cent. in respect of the mines, and 15 <i>l.</i> per cent. on buildings and steam power used in connection therewith.

Halifax - - -	(1). Coal Mines - -	24	6,819	5,188	The amount which the premises would let for from year to year, subject to the usual deductions, is taken as the gross estimated rental. Coal Mines - -	1	£. 50	£. 45	This being the only mine within the union, no special rule or basis has been adopted in ascertaining the gross estimated rental of property of this description, but it has been assessed upon that which the committee thought to be the annual value based upon the actual rent.	10 per cent. has been deducted from the gross estimated rental. See Note in preceding column.
Wortley - - -	(1). Coal Mines - -	28	33,956	28,332	The gross estimated rental has been arrived at, first by taking the annual value, rent, or royalty of the coal worked, the quantity being based upon the average gettings of the three preceding years, then adding to this the fair rental of the machinery, buildings, shaft, and other works used in winning the coal; this rental being usually arrived at by taking 6½ per cent. on the estimated capital value of the works. (a) The cause of the Police Assessment being so much less than the County Assessment is that the Metropolis, with its Suburbs, and many of the larger Towns, levy their own Police Rates.

(b) Small payments made to County Authorities by the War Office are included in these sums.

(c) In the case of some counties the cost of the maintenance of Pauper Lunatics chargeable to the Unions appears to be included in this Return; but wherever this is done credit is given in the receipts for the amount paid by the Guardians to the county for the Lunatics of this class.

The average rate in the £. for County Rate in all England was $2\frac{3}{8}$ *d.* for the year 1875-76, and for Police Rate, $1\frac{7}{8}$ *d.*

The Loans raised on the security of the Rates, and outstanding against the County Authorities at Michaelmas 1876, amounted to 3,120,272*l.*

(Mr. William Henry Smith.)

Ordered, by The House of Commons, to be Printed,
13 February 1877.

MEMORANDUM.

THIS Return does not include any information in regard to County Roads (Turnpike and Statute Labour).

1.—TURNPIKE ROAD TRUSTEES.

The Trustees maintain these roads out of the revenues derived from the tolls, which are let annually at fixed rents to tacksmen. These toll rents are not dues on local taxes, and as the Trustees are not empowered to raise loans chargeable on, what can be described as, "dues, local taxes," &c., the information applicable to Turnpike Roads does not fall to be included in the Return.

All the roads are, with a few exceptions, burdened with debts. The Trustees, or other proprietors, who originally made the roads, or their representatives, advanced the money, on the cost, and have assignments to the surplus toll rents, after paying the cost of maintenance, &c., which surplus, if any, is annually divided among the creditors.

2.—STATUTE LABOUR ROAD TRUSTEES.

These Trustees do levy dues, or local taxes, but they have little or no money borrowed; that is to say, their assessments every year are sufficient to cover their outlay.

MEMORANDUM.

Sum raised by
Taxation for Local
Purposes.

1.—THIS is the *Sixth* Annual Return of Local Taxation compiled under the supervision of the Local Government Board.* The sum levied in England by Local Taxation, properly so called, and the aid granted from Imperial Taxation, amounted in, 1875-76, to £. 29,205,072, as shown hereunder, namely :—

TAXATION.			
	Local.	Imperial.	TOTAL.
	£.	£.	£.
1. Levied by Rates falling on rateable property - - - - -	22,476,484	1,886,076	24,362,560
2. Levied by Tolls, Dues, and Rents, falling on traffic - - - - -	4,469,655	6,122	4,475,777
3. Levied by Duties falling on consumable articles - - - - -	366,735	-	366,735
TOTAL - - - £.	27,312,874	1,892,198	29,205,072

Grants in aid.

2.—The Grants in the second column, however, are short of the aggregate Sum voted by Parliament for payment to Local Authorities in England during the financial year 1875-76, and which sum amounted to £. 2,358,133. The difference arises chiefly from the circumstance of the Government taking upon itself many charges in relief of Local Taxes which do not appear in the Annual Returns made to this Board.

Loans and other
Receipts.

3.—The sums raised by loans or derived from other sources, exclusive of Treasury Grants, during the year in further aid of each branch of the Local Taxes are stated below in respect of—

	Loans.	Other Receipts.
	£.	£.
1. Rates - - - - -	8,319,070	3,623,187
2. Tolls, Dues, and Rents - - - - -	1,846,741	380,885
3. Duties - - - - -	-	500

Appendix of
Abstracts.

4.—Heretofore the Board, in arriving at the aggregate Local Taxation of England, have drawn upon the various official sources to supply the particulars of those taxes in respect of which, under the provisions of 23 & 24 Vict. c. 51, they have no authority to require Returns. Considering it would increase the utility of the annual series, the Board have caused Abstracts to be made of all the Returns which come before Parliament by other enactments than that of the Statute of 1860. These Abstracts have been placed in an Appendix, and reference to the original document is given in each instance, to direct the reader to the source of fuller information whenever required.—See pp. 203 *et seq.*

* From 1861 to 1870, inclusively, the *Returns of Local Taxation (England)* were prepared at the Home Office.

5.—The Valuation—"Gross Estimated Rental," and "Rateable Value," in force at Valuation. Lady-day 1875, is printed for each Poor Law Union in the same Appendix; pp. 267 *et seq.*

6.—A Summary of the Amounts raised, discriminating the Rates and the Imperial Rates. Grants, and of the Sums expended by each class of authority, is set out hereunder. The Valuation of the Property on which the Rates are variously incident, amounted for the year 1875-76 to 140,524,319*l.* in Gross Estimated Rental, and to 119,079,589*l.* in Rateable Value.

The clerk states, with reference to the expenditure, that "when amounts of the rate were from time to time received, they were paid by the collector into the treasurer's hands, and applied indiscriminately in part discharge of the liabilities, not only of the Commissioners, as such, acting under their Local Act, but also of the liabilities of the Urban Sanitary Authority under the Public Health Act, 1872."

(f) 209. Eye.—"The expenditure for sanitary purposes is paid out of the Borough Fund."

(g) 217. Beccles, M.B.—Col. 24.—The surplus expenditure is paid from the Borough Fund Account.

* Sect. 112 of the 5 & 6 Will. 4, c. 76 (The Municipal Corporation Act), enacts that after the grant of a separate court of quarter sessions to any borough, it shall not be lawful for the justices of the county, within which the borough is situate, to assess any property within the borough to any county rate; and every part of the borough is to be wholly free and discharged from contributing, otherwise than is thereafter provided, to any rate or assessment of any kind of and for the county in which any part of the borough is situate. And Sect. 117 enacts that the treasurer of every county shall keep an account of the sums expended out of the county rate for other purposes than the costs of the prosecution, maintenance and punishment, conveyance and transport of offenders committed for trial in such county, and in the case of boroughs having a separate court of quarter sessions other than out of coroners' inquests, and shall send a copy of such account to the Council of every borough within such county in which a separate court of quarter sessions shall be holden, and which, before the 2 & 3 Will. 4, c. 64, was liable to contribute to the county rate, and shall make an order on the Council for the payment of the amount which would have been chargeable upon the borough if this Act had not been passed; and the Council of the said borough shall order the amount to be paid to the treasurer of the county out of the borough fund.

† In this, and some other instances, contributions have been paid to the county in respect of militia stores, but in view of the provisions of the 85 & 86 Vict. c. 68, and the 86 & 87 Vict. c. 84, they have not been included in this return.

‡ In the case of The Queen v. Monck, Law Reports, 2 Queen's Bench Division, 544, the Court of Appeal confirmed a decision of the Queen's Bench Division, establishing the liability of the Borough in respect of this aided part.

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

JANUARY 1876 and 1877.

Ordered, by The House of Commons, to be Printed,
12 March 1877.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns, the number contained in the two classes was about 3'0 per cent. of the total pauperism.

Out of the total number of 14,895 parishes in England, maintaining, or liable to maintain, their own poor, Returns of pauperism are now received, weekly, in respect of 14,890.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following Tabular Statement. The Number of Unions and Parishes, and the Population ascribable to each Division, are also shown, but exclusive of those Parishes from which no Weekly Returns are received:—

Ordered, by The House of Commons, to be Printed,

M E M O R A N D U M.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns, the number contained in the two classes was about 3·0 per cent. of the total pauperism.

Out of the total number of 14,895 parishes in England, maintaining, or liable to maintain, their own poor, Returns of pauperism are now received, weekly, in respect of 14,890.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following Tabular Statement. The Number of Unions and Parishes, and the Population ascribable to each Division, are also shown, but exclusive of those Parishes from which no Weekly Returns are received:—

*Ordered, by The House of Commons, to be Printed,

M E M O R A N D U M.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns, the number contained in the two classes was about 3·0 per cent. of the total pauperism.

Out of the total number of 14,917 parishes in England, maintaining, or liable to maintain, their own poor, Returns of pauperism are now received, weekly, in respect of 14,912.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following Tabular Statement. The Number of Unions and Parishes, and the Population ascribable to each Division, are also shown, but exclusive of those Parishes from which no Weekly Returns are received:—

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns, the number contained in the two classes was about 3·0 per cent. of the total pauperism.

Out of the total number of 14,917 parishes in England, maintaining, or liable to maintain, their own poor, Returns of pauperism are now received, weekly, in respect of 14,912.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following Tabular Statement. The Number of Unions and Parishes, and the Population ascribable to each Division, are also shown, but exclusive of those Parishes from which no Weekly Returns are received :—

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns, the number contained in the two classes was about 3·0 per cent. of the total pauperism.

Out of the total number of 14,917 parishes in England, maintaining, or liable to maintain, their own poor, Returns of pauperism are now received, weekly, in respect of 14,912.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following Tabular Statement. The Number of Unions and Parishes, and the Population ascribable to each Division, are also shown, but exclusive of those Parishes from which no Weekly Returns are received:—

(Mr. Salt.)

RETURN (A.)—COMPARATIVE STATEMENT OF PAUPERISM.

OCTOBER 1876 and 1877.

Ordered, by The House of Commons, to be Printed,
12 March 1877.

MEMORANDUM.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns, the number contained in the two classes was about 5·0 per cent. of the total pauperism.

Out of the total number of 14,917 parishes in England, maintaining, or liable to maintain, their own poor, Returns of pauperism are now received, weekly, in respect of 14,912.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following Tabular Statement. The Number of Unions and Parishes, and the Population ascribable to each Division, are also shown, but exclusive of those Parishes from which no Weekly Returns are received:—

Ordered, by The House of Commons, to be Printed,

M E M O R A N D U M.

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns, the number contained in the two classes was about 5.0 per cent. of the total pauperism.

Out of the total number of 14,917 parishes in England, maintaining, or liable to maintain, their own poor, Returns of pauperism are now received, weekly, in respect of 14,912.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following Tabular Statement. The Number of Unions and Parishes, and the Population ascribable to each Division, are also shown, but exclusive of those Parishes from which no Weekly Returns are received:—

AS TO THE ARRANGEMENT OF THE WEEKLY RETURNS OF PAUPERISM.

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns, the number contained in the two classes was about 5.0 per cent. of the total pauperism.

Out of the total number of 14,917 parishes in England, maintaining, or liable to maintain, their own poor, Returns of pauperism are now received, weekly, in respect of 14,912.

The Returns are arranged under eleven divisions. The Union-Counties which fall under each are shown in the following Tabular Statement. The Number of Unions and Parishes, and the Population ascribable to each Division, are also shown, but exclusive of those Parishes from which no Weekly Returns are received :—

(Mr. Salt.)

Ordered, by The House of Commons, to be Printed,
12 March 1877.

No. 1.—REMARKS ON THE RETURNS OF PAUPERISM, 1ST JANUARY 1877.

THE present Publication contains the Tabulated Returns of 650 Unions. The population of these places, by the Census of 1871, was 22,706,031; and the total number of Paupers on the 1st January 1877, was—

Pauperism,
1st January.

In-door.	Out-door.	GROSS TOTAL.	Deduct Persons relieved both In-door and Out-door, on the 1st January.	NET TOTAL.
161,021	571,982	733,003	480	732,523

This gives the proportion of Paupers as 1 in 31; or 3·2 per cent. on the population, according to the Census of 1871.

The first Table shows the number of Paupers as able-bodied, not able-bodied, and insane; distinguishing those relieved in the workhouse from those relieved out of doors; children relieved with “able-bodied” parents are classed as *able-bodied*; but children relieved without their parents, or relieved with parents who are “not able-bodied,” are classed as *not able-bodied*.

Second Table.
Comparison of
1st January 1877
and 1876.

Comparing the numbers returned on the 1st January 1877 with those at the same date in 1876, the figures stand thus:—

* Exclusive of those relieved, both In-door and Out-door, on 1st January.

† The area of the 650 unions is identical with that of the 649 returned in January 1876; the difference in number arises from the separation of Barrow-in-Furness from the Ulverstone Union, and the re-constitution of the parish as a union in itself.

Third Table.

The number of Paupers of all classes in receipt of Relief on the 1st of January 1876 and 1877, with the decrease, is exhibited in the next Table.

(Mr. Salt.)

Ordered, by The House of Commons, to be Printed,
12 March 1877.

NO. 1.—REMARKS ON THE RETURNS OF PAUPERISM, 1ST JULY 1877.

THE present Publication contains the Tabulated Returns of 649* Unions. The population of these places, by the Census of 1871, was 22,706,302; and the total number of Paupers on the 1st July 1877, was—

Pauperism,
1st July.

In-door.	Out-door.	GROSS TOTAL.	Deduct Persons relieved both In-door and Out-door, on the 1st July.	NET TOTAL.
147,017	563,158	710,175	242	709,933

This gives the proportion of Paupers as 1 in 32; or 3·1 per cent. on the population, according to the Census of 1871.

The first Table shows the number of Paupers as able-bodied, not able-bodied, and insane; distinguishing those relieved in the workhouse from those relieved out of doors; children relieved with “able-bodied” parents are classed as *able-bodied*; but children relieved without their parents, or relieved with parents who are “not able-bodied,” are classed as *not able-bodied*.

First Table.

TABLE I.

TOTAL - - -	30,530	116,487	224,553	338,605	710,175

* The Presteigne Union, consisting of 16 parishes, was dissolved on the 25th March 1877; nine of these parishes were added to the Kington Union, and seven to the Knighton Union.

† The majority of Insane Paupers here classed among the Out-Door are in Asylums.

Second Table.
Comparison of
1st July 1877 and
1876.

Comparing the numbers returned on the 1st July 1877 with those at the same date in 1876, the figures stand thus:—

TABLE II.

D A T E.		Number of Unions.	In-door Paupers.	Out-door Paupers.*	TOTAL.	
1st July	-	1876	650 *	138,201	569,174	707,375
	-	1877	649 †	147,017	562,916	709,933

* Exclusive of those who on the 1st July were in receipt of In-door as well as Out-door Relief, and therefore already enumerated with the In-door paupers.

† The area of the 649 unions in 1877 is identical with that of the 650 returned in 1876; the difference in number arises from the Presteigne Union having been dissolved, and the parishes belonging thereto absorbed by the adjacent unions.

Third Table.

The number of Paupers of all classes in receipt of Relief on the 1st of July 1876 and 1877, with the increase, is exhibited in the next Table.

Comparing the expenditure in England for In-Maintenance and Out-door Relief of the Lady-day half-year, 1877, with that of 1876, there was a decrease of

of 11,285 £., or 0·5 per cent.; and it will be seen by the next Table that there was a decrease of expense in five Divisions out of the 11 into which England is apportioned.

The sums disbursed by the Guardians as “Further Relief in shape of School Fees” for the education of the Out-door Pauper Children in Public Elementary Schools, as well as the amount expended as “Relief in Kind” to the Out-door Paupers, are also given in this Return. The expenditure in respect of both these items is shown for each Union at pp. 10 to 29. It appears that out of the 650 Unions of England, 137 during the past half-year administered all their relief to Out-door Paupers in money.

Comparative Expenditure in Divisions.

Comparing the expenditure for In-Maintenance and Out-door Relief of the Michaelmas half-year, 1877, with that of 1876, there was an increase of

of 39,955 £, or 1·9 per cent.; and it will be seen by the next Table that there was an increase in seven out of the 11 Divisions into which England is apportioned.

The sums disbursed by the Guardians as “Further Relief in shape of School Fees” for the education of the Out-door Pauper Children in Public Elementary Schools, as well as the amount expended as “Relief in Kind” to the Out-door Paupers, are also given in this Return. The expenditure in respect of both these items is shown for each Union at pp. 10 to 29. It appears that out of the 649 Unions of England, 136 during the past half-year administered all their relief to Out-door Paupers in money.

No. 1.—REMARKS ON THE ANNUAL POOR RATE RETURN.

i.—The Poor Rate Return for 1876-77 generally.

THE present is the *seventieth* annual publication of the Poor Rate Return ; it represents the sums levied and expended as Poor Rates throughout the whole of England.

Series of Returns.

The sum raised by Poor Rates during the year ended Lady-day 1877 was 12,049,046*l.* ; the receipts in aid, inclusive of 560,477 *l.*, the Treasury subventions and payments for Government property, amounted to 899,128 *l.* ; forming a Total Receipt of 12,948,174 *l.*

Levy of 1877.

It is to be observed that 4,943,908 *l.*, or more than *one-third* of the whole Poor Rate now levied, is expended for “other purposes” than the Relief of the Poor. The figures which represent for 1876-77 the whole expenditure out of the Rates are these : —

the Medical Officers; extra Medical Fees paid to them under the General Consolidated Order; also, the cost (if any) of medical and surgical appliances, and drugs. The sums in this column are not additional to those given in Column headed "Total Relief to the Poor;" because the various items of Medical Relief are included in sub-columns (e) or (f), as forming a portion of the "Relief to the Poor:" the "Medical Relief" is printed separately, as indicating an important and special subject of Poor Law administration.

If to the sum expended by the Poor Law Guardians as Medical Relief be added the disbursements for the same object made by the managers of the other pauper institutions named hereunder, the total will amount to 294,689 *l.* for the year:—

b. and c.—*Law Charges and Expenditure partly connected and partly unconnected with Relief to the Poor.*

Law and other charges partly connected with Relief.

Total - - £. 654,295.

This sum is made up of the "cost of proceedings at Law or in Equity (parochial and union)," 34,805 *l.*; "payments under the Parochial Assessment Act, and Union Assessment Committee Acts," 96,265 *l.*; and "all other purposes, inclusive of Salary, Poundage, and Superannuations to Parochial Officers, Constables' Expenses, and Proceedings before Magistrates," 523,225 *l.*

d.—*Expenditure unconnected with Relief to the Poor.*

Total - - £. 4,943,908.

This part of the Poor Rate Expenditure, which is entirely foreign to the object originally contemplated in the enactment of the rate, has greatly increased since the passing of the Poor Law Amendment Act in 1834, in consequence of the imposition of new and the augmentation of old charges. The Table at p. 9 exhibits, separately, all the charges referred to, so far as the Returns permit. The heaviest item is the disbursement in respect of the "County, Borough, and Police Rate." The Contributions by the Overseers to the Rural Sanitary Authorities and to School Boards, are paid out of the Poor Rate and shown in the Poor Rate Returns.

Large proportion of Expenditure for purposes unconnected with Relief.

iv.—Loans outstanding against Poor Law Authorities.

Loans.

The Balance of Loans effected by the Poor Law Union Authorities under the Orders of the Board is now given in the Annual Poor Rate Return. According to these figures, the Balance at the close of the parochial year 1876-77 was 2,926,864 *l.* The Total of the Rates levied during the currency of the same year was, as before stated, 12,049,046 *l.* The outstanding liabilities with regard to loans, therefore, are more than one-fifth of the aggregate levy, but many unions contributory to that levy are free of loan-debt. The Balance is shown and the ratios entered for each division of the kingdom hereunder :—
